

THE FORSAKEN TO THE FALSE ONE.

BY THOMAS HAYES BAILEY.
I dare thee to forget me!
Go wander where thou wilt;
Thy hand upon the vessel's helm,
Or on the sailor's bill;
Away! thou'lt fret o'er land and sea
Go rush to danger's brink!
But oh, thou canst not fly from thought!
Thy curse will be—*to think!*

Remember me! remember all,
My long enduring love,
That linked itself to perdition;
The vulture and the dove!
Remember in thy utmost need,
I never once did shrink,
But longed to the confounding
Thy curse shall be—*to think!*

Then go! that thought will render thee
A dastard in the fight;
That thought, when thou art tempest-tost,
Will fill thee with affright!
In some wild dungeon may'st thou lie,
And, counting each cold link
That binds thee to captivity,
Thy curse shall be—*to think!*

Go seek the merry banquet hall,
Where younger maidens bloom,
The thought of me shall make thee there
Endure a deeper gloom;
That thought shall turn the festive cup
To poison while you drink,
And while false smiles are on thy cheek,
Thy curse will be—*to think!*

Forget me, false one, hope it not!
When minstrels touch the string,
The memory of other days
Will gulf thee while they sing;
The airs I used to love will make
Thy coward conscience shrink,
Aye, every note will have its sting,
Thy curse will be—*to think!*

Forget me! No that shall not be!
I'll haunt thee in thy sleep,
In dreams thou'lt cling to slimy rocks
That overhang the deep;
Thou'lt shriek for aid in feeble arm
Shall hurl thee from the brink,
And when thou'lt wake in mild dismay,
Thy curse will be—*to think!*

Exhibition of the Deaf and Dumb.—There was a great crowd at the Representatives' Hall yesterday afternoon, to witness the exhibition of some pupils from the Hartford Asylum for the Deaf and Dumb. There were four of them: Mary A. Mann, Caroline Esty, Wm M. Chamblain, and Samuel Rowe. Three of them are beneficiaries of this State, and the other of the State of Maine. The youngest of the four had been taught to articulate, if that can be articulated which it is nearly impossible to understand. The pupils were examined in reference to their knowledge of ancient history, sacred and profane, geography, arithmetic, &c. &c. Their answers were remarkably prompt and accurate. Many questions were proposed by persons in the audience, and often very pertinent answers were written by the pupils on the black board. For example, they were asked the meaning of the word *detest* and one of them replied, "It is to hate anything with the whole heart." They were asked the meaning of *abhor*, and they applied by saying, "all Christians abhor sin." What makes men happy? was answered by one thus:—"Virtue makes them happy;" by another, "To be prosperous in business and have future hope of glory;" by another, "Some men say they are happy because they have riches and live in splendor, but they are mistaken; true happiness consists in the love of God and the hope of heaven." The fourth said if any man does good he will be more happy than if he does wrong.

Numerous other questions were asked, and equally pertinent answers were given. One of the pupils in reply to the question, for what is Massachusetts celebrated? among the other things, enumerated "A generous Governor and Council." Indeed, all their replies evinced intelligence, and not mere school-room drilling for the purpose of exhibition. Mr. Weld, the excellent Principal of the Hartford Asylum, conducted the examination with great tact and fairness.—*Boston Traveller 6th inst.*

Intrepid Jews.—On a late occasion the Emperor of Russia was reviewing his fleet, when two sailors particularly excited his attention, both by the precision with which they performed several difficult maneuvers, and by the agility and daring which they displayed. The Emperor was so much pleased that he immediately promoted one to be a captain; the other he appointed lieutenant on the spot. The men, however, were Jews, and there is an ancient prohibition Jews to wear an epaulet. The Admiral of the fleet, who stood by, knowing that they were Jews, stated the difficulty to his Imperial Majesty. "Pshaw!" cried the Emperor, "that does not signify in the least—they shall immediately embrace the Greek religion, of course." When this determination was communicated to the two young men, knowing that remonstrance or refusal would be in vain, they requested the Emperor's permission to exhibit still more of their maneuvers, as he had not seen all they could do. This being granted, they ascended the topmast, embraced, and locked in each other's arms, threw themselves into the sea, and disappeared forever.—*English paper.*

A Swimming Feat.—The Sandwich Island Friend, of October 1st, gives a remarkable account of a swim lately effected in those waters. It runs thus:—"On the 28th of September, Stephen Dresser, who belongs to Portland, Maine, was taken on board the whale ship *New Bedford*, in the harbor of Honolulu. He reports that on the evening of the 26th he jumped overboard from the 'London Packet,' having taken from the Captain's boat his life preserver. On Saturday morning he could just discern the loom of the mountains of Oahu. After swimming all day, at the firing of the 9 o'clock gun he was abreast of the two men-of-war, in the outer harbor; after getting upon the reef he tried to walk, but the surf and waves dashed him along, and at the time of being picked up, he was nearly insensible—having been in the water thirty or more hours. He reports that he left the London Packet on account of ill usage, and that the crews were disorderly."

Save your Corn-Cobs and Shucks.

TO THE PLANTERS and MILLERS of NORTH CAROLINA.
THE undersigned has obtained Letters Patent, to enable common Mill stones (or rocks) now in use, to grind CORN, COB and SHUCK, into meal, for Horses, Mules, Cattle, Hogs, &c., thereby saving more than one third of a crop, which is an important item with planters. The machinery used for the above purpose is simple and durable, and cannot, with fair means, get out of order. It will last as long as the Stones last, with an expense of 50 cents every five years. To enable the common Mill Stone, to grind ear corn into meal, requires no new buildings or extra power. It can also be applied to Horse Mills, Thrashing Machines, Gins, or any given power known. The same Mill will grind one-third more of Corn Meal by the introduction of this Machinery, and can be changed from grinding Corn and Cob to grinding Corn alone when the space of thirty seconds. Corn alone when fed to stock, is said to be by the most practical and scientific Planters, constituting in its effects, producing founders, cholics, and various other maladies which are incident to stock. Grinding cobs with the Corn, makes a food congenial with their nature, and cannot produce any of the serious results above mentioned. Stock, when fed on Corn exclusively, are deprived of the benefits of distension (so necessary to the proper health of animals,) by their being unable to eat a sufficient bulk to produce distension before the animal becomes gorged. Cobs ground with the corn, produce the necessary distension, without any danger of diseases arising from overeating. Corn and cob meal is improved by scalding, and still more by boiling, and yet more by a partial fermentation. All the preparations facilitate digestion for Hogs. But Horses and Mules will not eat fermented food, consequently they will require it dry or partially wet with cold water. Horses, Mules and Oxen, when fed with unground food, void much in an undigested state, which is of course lost for all beneficial purposes. Read the subjoined certificate. The undersigned can be addressed at Raleigh, and all calls will be attended to punctually and with despatch by himself or Agent.

March 14, 1845. W. F. COLLINS. 26-1y.

CERTIFICATE.
Having been solicited by Maj. Collins to have my Mill adjusted to grind Corn in the Ear and Shuck, I consented that he should do so as an experiment; and I am able to say that it grinds Corn in the Shuck at the rate of 30 bushels per hour; and the dressing of the stones is so improved, that it grinds shelled Corn more than twice as fast as before, and by my watch, at the rate of 15 bushels per hour, and the meal finer than usual. I deem it a valuable improvement, and shall purchase the right to use it, as it will afford me a speedy way of feeding my horses and cattle, and save much thereby.
